

Electrifying speed: EOS 7D Mark II

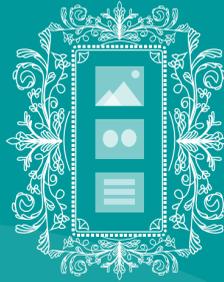

Built for those with a love of speed. Be the first to capture the extraordinary, and grab the moments that other photographers miss

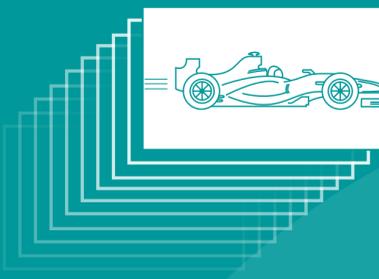

Let your camera become an extension of you and make the EOS 7D Mark II just the way you like it, with adaptable and customisable controls
12 customisable body controls, menus and a new viewfinder offering 100% coverage

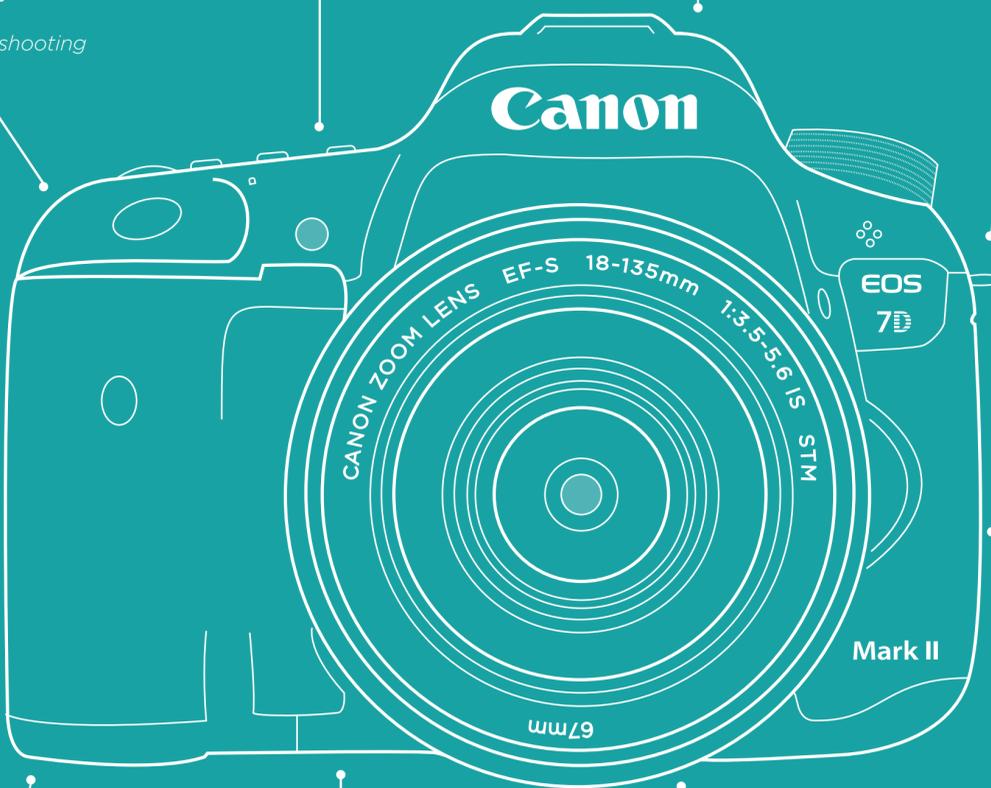

When you're capturing your children's gymnastic event your eyes might not be able to see the light flickering, but the EOS 7D Mark II's metering system can and automatically adjusts so it shoots when the light is as its best
High-resolution 150k pixel RGB+IR metering sensor and Flicker detection

At the end of your shoot you'll have the confidence that you're images will be exhibition-quality, and ready to display - whether at home or in a gallery
20.2 MP APS-C CMOS sensor

When you're at the motor racing watching cars zoom past you can shoot a blisteringly-fast 10 frames per second
10 fps continuous shooting

Your imagination knows no limits. Put it on the big screen with cinematic options and watch back your movies, even with creative features such as slow motion
60p Full HD movies with Dual Pixel CMOS AF and uncompressed (4:2:2) HDMI output

You don't have to worry about challenging lighting conditions, as the sun goes down at the end of the day you can always shoot stunning images
ISO 100-16,000 range expandable to ISO 51,200

Capture every detail of a galloping horse as it jumps over a fence - using 65 focus points you can capture every moment
65-point cross-type AF system with dual cross-type focusing at f/2.8

Never lose track of animals on safari as you track a cheetah appearing across the savannah
ITR AF focusing system and AI Servo AF III technologies
